DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"I have had so much benefit from your medicines am glad to say a few words that you may use for publication," writes Mrs. J. R. Downes, Crystal Lake, Conn. "I had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst ailments were headache, frequent pains around heart and under right shoulder-blade. My hands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days cared but little for food; I lost flesh; felt so tired and miserable it seemed I couldn't do any housework. Took medicine from my physician, but received no benefit. Bought a bottle of 'Golden Medical Discovery,' and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well."

A Great Doctor Book Free.—Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to cover cost of mailing *only* and he will send you a free copy of his 1008-page Common Sense Medical Adviser, paper-covered. Cloth-covered 31 stamps.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Amusing Incident.

An amusing incident occurred at the hotel at Portsmouth, N. H., yesterday, which illustrates the resourcefulness of the American "fakir."

As Mr. Witte was strolling up and down the veranda of the annex, where the Russian headquarters are located, an individual with a violin under his arm and the history of much traveling on his face and clothing, stepped up to the chief Russian plenipotentiary and, accosting him in the most flattering fashion, asked if it was possible that he was speaking to the "great Witte."

A friend who spoke English translated the strolling player's question to Mr. Witte, who replied in the affirmative. Then, placing his hand upon his heart, the man with the violin proceeded volubly to recount his great admiration for "Holy Russia" in the war it had waged against "the heathen."

He said he was an Irishman and sympathized with Russia, and had only been sorry that the "great White Czar" had agreed to make peace. He then asked the privilege of playing a "song of peace and war," which he said he had composed last night for Mr. Witte.

The Russian envoy told him that he would be happy to hear the music if it could be finished quickly, as he was going to luncheon.

For several minutes the fakir treated his excellency, who really has a fine ear for music, to some execrable violin playing.

Mr. Witte cut him short and lavished upon him $3 as surcease money. Five minutes later the same man was around at the front of the hotel telling Mr. Sato, the Japanese secretary, that he was an Englishman, a great admirer of the wonderful allies of his county, and that it would give him pleasure to render in the presence of Baron Komura a "song of victory," which he had composed especially for the occasion.

Mr. Sato, however, was not greatly impressed by the man's appearance, and he would neither give him money nor listen to his music.

Charges Against a Minister.

Rev. J. Howard Hand, pastor of the First Methodist Church at Rye, N. Y., who, according to town gossip and the written statement of Miss Helen Louis, has been paying marked attention to the younger members of his flock, stole a march on the gossips last night and forced them to show their proof of his guilt. At the pastor's request, a meeting of the elders of the church was called to determine if there was enough truth in the rumor that he had hugged and kissed Miss Louis to prefer charges against him.

Dr. Hand is about fifty-five years old, is married and has four children. He has been pastor of the Rye church for about a year. The present trouble started about a month ago on a trolley ride given by the Epworth League. On this ride the minister sat next to Miss Louis. A few nights later he called on her, and then the trouble began. Miss Louis wrote a statement to the Ladies' Aid Society accusing the minister of hugging her and of addressing improper remarks to her.

The father of Miss Louis declined to tell in full what his daughter said about the minister in her statement, but made this statement: "She said a lot of things. She told me that the minister tried to hug her and made remarks to her. He called at my house several times, and his remarks were not to my liking. I compelled him to return my daughter's picture. If there is ever any legal suit over the matter I can promise some red-hot developments."

At the request of Rev. Mr. Hand, of Rye, Rev. John E. Adams, the presiding elder of the Methodist conference, visited Rye last night and appeared before the stewards in reference to the alleged charges made against Mr. Hand. The stewards held a meeting in the church, but refused to make the result of their deliberation public.

Migrations of the Eel.

Dr. J. Schmidt, in the course of Danish fishery investigations, has made important discoveries regarding the habits of the common eel which hitherto have been a matter of mystery. Dr. Schmidt has captured great numbers of the larvae of the eel in the deep water of the North Atlantic to the west of the British Isles, in depths of from 3,000 to 6,000 feet. So abundant were they in some places that as many as 70 were caught in one haul of the net. Dr. Schmidt has without doubt discovered, as he claims, the breeding place of the common eel of northwestern Europe, and it is almost incredible at first sight that it should be located in the abysses of the Atlantic, many hundreds of miles, and in some instances well over a thousand miles, from the fresh waters where the eels are reared. The parent eels must travel all that distance to spawn, and the young eels must come all that distance back.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. Leadbeater and Sons, drug store.

PAINFUL PERIODS

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering, it is not the plan of nature that women should suffer so severely.

Miss Irene Crosby

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Miss Irene Crosby, of 313 Charlton Street East Savannah, Ga., writes:

"Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful menstruation when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Gibson & Timberman and W. F. Creighton & Co.

A Laxative Cough Syrup.

It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W. F. Creighton & Co., 401 King street.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY- EVENING. SEP. 1, 1905.

THE vote in the late primary as cast in the Alexandria, or Eighth, congressional district was published in the Gazette of Wednesday. The vote is indeed most gratifying from a democratic standpoint. If all the rest of the State shows similar splendid democratic gains the battle of November next can be predicted as to results divested of any and all uncertainty. The vote for Martin and Montague, 8,461 in the aggregate, is 733 more than was cast for Judge Parker last year, and then Roosevelt was behind Parker just 4,615 in this district. The vote for governor was only 57 less than for Senator, or 8,404, accounted for by reason of three instead of two persons being on the ticket. Judge Lewis may be, or rather appeared to be before the primary, optimistic. Chairman Slemp is enthusiastic and the whole republican outfit under the new dispensation being bombastic, will say this is only one district. Why, certainly, but only yesterday the vote in Amherst county was published and the result was a tie between Senator Martin and Governor Montague, each receiving 542 votes, a total of 1,984 or 206 more votes than were cast for Judge Parker and thirty-nine more than were cast for both Parker and for Roosevelt last year in Amherst county, when Parker received 878 and Roosevelt 177. Straws show the direction of the wind, the strength of the wind by its velocity. Democratic strength is evidenced by the large vote of Tuesday, August 22nd, and it is now estimated that the vote will be in excess of that cast for Judge Parker in the State last year, when it was 80,664, as against 48,181 for Roosevelt. Not from modesty, but only for the reason that he does not care to offend the President, Chairman Slemp and his son would say Parker was stronger than Swanson will prove, and Judge Lewis is stronger than Roosevelt was. Of course, neither Congressman Slemp nor his son, nor Judge Lewis, or any of their party leaders, big or little, believe that any republican in Virginia or any other State is as strong an opponent of the democratic party this year as Theodore Roosevelt was last year. No intelligent man believes it, and no candid man will admit it.

BARON ROSEN, Russian Ambassador to the United States, made a very significant statement Wednesday. He said that it is the intention of Russia, now that there is to be peace, to cultivate the closest relations with Japan, in the hope of eventually taking the place of England in a Japanese combination. This is the reason why so much care is to be bestowed on the commercial features of the treaty to be made. So far as the evacuation of Manchuria is concerned, the treaty will merely recognize and establish the principle. The time of the evacuation will be set by the generals in the field. Nothing has been heard from St. Petersburg or Tokio yet as to the armistice, but that is not strange, as the armistice, when it is decleared, will be arranged by the home governments. Indeed, there has been a virtual armistice since the negotiations began. Should this plan crystalize into a fact both Russia and Japan will doubtless soon recuperate from the effects of the war and become more prosperous than ever while following the paths of peace and good will toward each other.

MR. J. L. GLEAVES, of Wytheville, addressed a gathering of the republicans of Page county at Luray, Wednesday. He dwelt at length upon the "business-like management of national affairs by the republicans and the bad management of state affairs by the democrats." The speaker said that graft had been shown to exist in many branches of the State government, and the welfare of Virginia demanded that her affairs should be turned over to the republicans. Well this is too much. The idea of republicans having the impudence to talk of graft! Why every department in the government now under control of the republicans reeks with graft and the courts are kept busy trying and sentencing the grafters.

THE summer has gone and many there are who have hardly realized its coming.

The Wealth of Washington.

A recent compilation of the records of Fairfax county gives some interesting data relative to the wealth of George Washington.

Washington inherited Mount Vernon from his brother Lawrence in 1752, but did not commence to reside there until 1759, at the age of 27 years. At that time he owned in Virginia and other States 50,795 acres of land, besides several thousand acres in Fairfax county. The magnitude of his farming operations in 1787 can be imagined from the fact that he had 580 acres in grass, 400 acres in oats, 700 acres in wheat and 700 acres in barley, buckwheat and other cereals. He owned 140 horses, 112 cows, 226 oxen, 500 sheep and a large number of hogs. He employed 250 negro hands. In 1780 the records show that he slaughtered 150 hogs for the use of his family and servants.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Sept. 1.

The Board of Consulting Engineers of the Panama Canal Commission met this morning in the offices of the commission in this city. When Chairman Shonts informally called the meeting to order all the members were present. Mr. Shonts acted in a purely unofficial capacity. Neither he nor any member of the regular commission has any connection with the consulting board, which will act independently, and upon arriving at its conclusion make a report to the President. Mr. Shonts presented President Roosevelt's executive order convening the board, welcomed the members and then left them in charge of General George W. Davis, who has been designated as chairman. The first meeting was devoted to an interchange of cordialities among the engineers, and adjournment was taken until three o'clock this afternoon, when the organization and plans for the deliberations will be arranged. The quota of the board includes engineers of world wide fame.

Colonel Mosby, who is now in Washington, was unable to join his men in their reunion at Fredericksburg yesterday. A letter from him stated that urgent engagements prevented his going.

Virginians in Washington are commenting on the fact that Governor Montague has not yet sent a letter of congratulation to Senator Martin upon the result of the primary. They point out that the amenities of political life require it and they point to the magnanimous messages of congratulation sent by Mr. Willard and Judge Mann to Mr. Swanson and wonder why the governor has not sent such a message to Senator Martin.

Jesse Everett Wilson, of Indiana, took the oath of Assistant Secretary of the Interior this morning and at once entered upon the performance of the duties of that office. He is thirty-seven years old. In his new position he will hear, consider and dispose of cases appealed from the Commissioner of Pensions to the Secretary of the Interior.

A movement is on foot in Washington to give expression to the country's appreciation of President Roosevelt's peace achievement, by greeting him in a demonstration on his return to the capital the last of this month. It is proposed to have a great outpouring of citizens on Pennsylvania avenue to cheer him on his way from the station to the White House, to have the city decorated with flags and bunting and, if agreeable to the President, to furnish an escort of military and civic bodies. The suggestion has also been made that the dispute in regard to the official name of the peace convention be settled by calling it the "Roosevelt treaty."

Secretary Root has just leased the home of Representative Bourke Cockran, of New York, No. 1333 Sixteenth street, for the coming fall and winter. His family, will take up residence here late in the fall.

The report of the committee on pensions show that on June 30 there were 998,246 pensioners on the rolls.

Mrs. Cora E. McIntosh has been appointed postmaster at Arlington, Alexandria county, Virginia, vice C. R. Pritchard resigned.

Blown to Pieces in the Air.

Prof. A. Baldwin, an airship exhibitor, was blown to atoms by the explosion of six sticks of dynamite in his balloon while 1,500 feet in the air at Greenville, Ohio, yesterday. His wife and two children were in the crowd of 25,000 persons who saw the calamity.

Baldwin had been giving daily exhibitions at the county fair. He would ascend several thousand feet in the air and explode half a dozen sticks of dynamite at different times. Yesterday he had mounted 1,500 feet in the air, and his airship was soaring gracefully.

While the thrilled crowd, with heads upturned, were watching him, there appeared in the sky where the airship had been a great cloud of smoke. A few seconds later there came down a great boom from the clouds, smoke obscuring the view, and fragments of the airship began falling. Baldwin had literally been blown to bits by the explosion. His body was picked up from a space of several acres and removed to a morgue.

Baldwin's wife screamed when she saw the smoke, long before the explosion, for her practiced eye told her of the tragedy which had occurred in the clouds. She fell in a dead faint before the vast crowd had realized what was happening.

No one can tell how the accident occurred. The six sticks of dynamite exploded simultaneously, as only one report was heard. Men's faces blanched and women fainted as the fragments of the ship and the aeronaut's body fell.

Baldwin was from Losantville, Ind., and was thirty-six years of age. He had been engaged for a long while in giving balloon and airship exhibitions at county fairs.

State Board of Trade.

The Virginia State Board of Trade, which met in Richmond Thursday in third annual session, adjourned last night after having elected the following officers for the ensuing year:

Eight Italians were blown to bits with dynamite in the Greenbrier valley, near Barlow station, W. Va., Wednesday night, and the belief is that it was the vengeance of the Mafia. Nothing was left but a hole in the ground and all around the ground was littered with fragments of bodies. Even the trees were hung with the gastly pieces. The two men have disappeared and are believed to have been Mafia agents.

AGREED TO ARMISTICE.

Japan, through Baron Komura, has agreed to the immediate conclusion of an armistice. At 11 o'clock last night Mr. Takahira went to Baron de Rosen's room and explained that he and Baron Komura had received instructions to arrange terms of an armistice. Baron Rosen immediately communicated with M. Witte, and it is probable that a meeting will be held today for the proclamation of a complete suspension of hostilities preliminary to the arrangement of the details by the two generals upon the battlefield.

Immediately following the reports received in Portsmouth that the war party at St. Petersburg was endeavoring to undo the work of the peace envoys, the Czar took steps to prove that he would stand by the obligations assumed by M. Witte and Baron Rosen in their agreement with the Japanese envoys. Last night M. Witte received a telegram from Count Lamsdorff, the Russian minister for foreign affairs, giving assurances that the recommendation of the Russian envoys for the declaration of an armistice would be approved. In his telegram Count Lamsdorff said that the Czar would immediately instruct Gen. Linevitch, the commander-in-chief in the field, to suspend hositilities as soon as the Czar had received information that the Emperor of Japan had directed Field Marshal Oyama to take the same course.

Count Lamsdorff's reassuring message removed all doubt as to the success of the peace negotiations.

The report emanating from Portsmouth to the effect that the war party in Russia is urging the Emperor to repudiate the treaty of peace is pronounced in St. Petersburg to be untrue and absurd. All the necessary measures for putting an armistice into effect have been taken there.

While pleased with the prospect of the removal of further bloodshed from the far East, a large portion of the public is unable to reconcile itself to the loss of territory, however, insignificant. The national pride seems to be offended by the cession of part of the island of Sakhalin.

It is said that the Russian people almost without exception welcome peace and express the hope that the shackles which kept American enterprise out of Russia will be removed. Preference for American enterprises in Russia as against German is expressed.

Added to the horror, the house and household effects were destroyed by the furious flames started by the explsoion. Only the outbuildings on the premises were saved by neighbors. Mrs. Leonard attempted to rekindle a fire in the kitchen stove by pouring oil from a can. The oil ignited instantly and the can exploded, enveloping the woman in flames. Her clothing was rapidly burned from her body, and she rushed into the yard, where she was found unconscious. She revived under the influence of stimulants, but her pain was intense and she begged the physician to end her life. Six children and her husband survive.

THE MOSBY REUNION.

Yesterday at Fredericksburg there assembled a portion of the survivors of the Mosby command of the civil war, the occasion being the twelfth annual reunion of Mosby's men. About 75 of the command were in attendance. They met in the courthouse at 10:30 o'clock in the morning, where they were welcomed to the city and given the freedom of the city by Mayor Thomas P. Wallace.

Capt. J. W. Foster, the present commander of Mosby's men, then introduced Mr. Joseph Bryan, of Richmond, who made an address in response.

A business meeting was held. After the reading of the minutes of the last meeting the old officers were re-elected to serve another term as follows: J. W. Foster, commander; J. T. A committee was appointed to draft suitable resolutions in memory of the following four departed members who died since the last reunion: Ex-Mayor John G. Beckham, of Alexandria; Lieut. A design of the proposed monument to be erected at Marshall to Mosby and his men was on exhibition. The design was furnished by a Pittsburg firm. The cost of the monument will be $2,800. After a few changes the design was accepted. The monument will stand 14 feet, 6 inches high, with a statue of Mosby, six feet six inches high, on top. The brass plates on the sides will give the names of the privates and the officers. It will be erected within a year.

Richmond was selected as the next meeting place, but no time was set.

Today's Telegraphic News

THE TREATY.

Porthmouth, N. H., Sept. 1.—While there may be some unlooked for delay over phraseology, the present expectation is that the peace treaty between Russia and Japan, will be signed Tuesday.

There is at present a slight disagreement over the article relating to the island of Saghalien, but it is thought that a complete understanding will soon be reached. With this exception the first rough draft of the treaty is practically finished.

A meeting of the envoys is expected to be held tomorrow when the draft of the convention will be submitted. The protocol of the session of last Tuesday at Portsmouth when the peace terms were agreed upon, has not yet been approved and signed. The envoys have been awaiting a message officially confirming their action before taking up that work. This protocol differs from the others in that, while envoys felt that their powers were sufficient, they declined to attach their signatures to this document until the Czar of Russia and the Mikado of Japan had approved their course, and authorized the work to be done.

It has been decided that the cermony of signing peace between Russia and Japan shall be a simple one. The President has declined the invation of the Governor of New Hampshire to attend a banquet here at this time, and it is announced that he will not be present to witness the signing of the treaty which will take place in the conference room of the navy yard, where all the deliberations have been conducted.

If this is done on Tuesday, as is now expected, the envoys will leave Portsmouth on the following day. It is their desire to be in New York, Wednesday night, so that they may make an official call on the President Thursday morning. This meeting has been arranged by the President for the purpose of permitting the exchange of congratulations and of leave-takings. They will be given a lunch of the same informal character as that which marked the ceremony on board the Mayflower when the envoys were first brought together by the President. From that point the movement of the respective missions will be independent of each other. They both however expect to visit Washington. Baron Komura and party will return to Boston, and may than accept hospitality of the State of New Hamphire for a brief sojourn in the White Mountains or they will leave for Seattle as the guests of the Canadian Pacific Railway. Both Tronto and Chicago will be visited. From Seattle the steamer Dakota will be taken for Japan. M. Witte after paying a visit to Washington, will visit several eastern cities.

A proclamation of an armstice to go into effect immediately is now being drawn up by the envoys here at the hotel with the formality of a special meeting at the navy yard and be will at once cabled to General Linevitch and Marshal Oyama.

The formal announcement was made this morning that a message had been received from the Emperor of Japan, giving his consent and approval to the peace terms and agreeing to an armistice.

Portsmouth, N. H., Sept. 1.—The armstice proclamation was signed at high noon today.

Portsmouth, N. H., Sept. 1.—The explanation of the Japanese demand that the armistice should not take effect until after the treaty is signed, is, it is said, that it is a limited armistice, which while providing for the temporary cessation of hostilities, holds the armies in readiness, if necessary for an immediate resumption of hostilities in case of an unlooked for breach.

At 12:45 p. m. Mr. Sato made official announcement of the signing of the armistice by the four envoys. He confirmed the statement that it would not go into full effect until after the signing of a peace treaty here. He put the time of signing at 11:30; but that evidently referred to the assembling of the envoys.

Express Train Strikes Automobile.

Philadelphia, Sept., 1.—The fast express train over the West Jersey line to Atlantic City, which left this city at 9 o'clock this morning, crashed into a big touring automobile at the Absecon crossing. In the automobile were two men from Maryland en route for the big automobile race which is to open at Atlantic City tomorrow. The locomotive attached to the express, which was traveling at the rate of 60 miles an hour, struck the touring car on the side, smashing it into fragments. The occupants were S. H. Hack, jr., aged 30 years, and George Groves, also aged 30, and both wealthy residents of Glyndon, Maryland, near Baltimore. Just as the engine struck the car, Groves jumped and landing in the soft marsh beside the road escaped uninjured. Hack was tossed high in the air together with the debris of the wrecked automobile, beneath which he was buried. When dug out by the train crew, he was unconscious and placed on the train and hurried to the Atlantic City hospital, where it was reported at noon his injuries were probably of a fatal character.

Collided With Lighter.

New York, Sept., 1.—The New Bedford line steamer Maine, coming down the East river this morning against a strong flood tide, ran down a lighter loaded with pig iron and belonging to the Collier Brothers lighterage company, just north of the Brooklyn bridge. The force of the impact caused a large quantity of the heavy cargo to go overboard, and the scow turn turtle. Five men who were aboard of it jumped into the river and were rescued. The Maine sustained only slight damage, her bow being crushed a little above the water line. There were 200 passengers on the Maine, and there was considerable excitement when the crash occurred. A hasty examination was made by officers of the steamer, and they were able in a few minutes to report to the passengers that everything was all right. The excitement then subsided.

According to the story told by Mrs. Kelly, whose husband is a well-known lawyer of Philadelphia, she had been to a bath room, and while there had taken off the ring, and laid it beside the bowl. She went to her room again, leaving the ring and immediately she discovered that it was missing, returned to get it. It was gone.

Peace News in Manchuria.

St. Petersburg, Sept. 1.—Dispatches from the army in Manchuria which have just been received say that the news that peace had been agreed to was received by the troops with great enthusiasm. The soldiers manifested their joy by kissing each other, and at once began a celebration in the joyous hope that they will soon be able to go home. The officers, however, do not join in this feeling of enjoyment. They openly express their displeasure at the closing of hostilities and declare that the army was prepared to win a series of brilliant victories.

History May Repeat Itself.

Hotel Wentworth, Newcastle, N. H., Sept. 1.—History may repeat itself. The armistice proclamation which was signed here at noon today cannot be communicated to Japan. Word has been received here that neither cable to Japan is working. No messages from the envoys here can reach Tokio today, according to the information given them by the cable company. As the proclamation must be sent to the generals in the field by the Tokio and St. Petersburg governments, Marshal Oyama cannot be officially informed of the declaration of a truce. It will be recalled that Manila was captured after an armistice had been arranged between the United States and Spain, that General Wilson and the Spaniards at Orecibo in Porto Rico, were aligned in battle for an engagement when a messenger arrived with the news, the telegraph lines being down, and to go farther back in history, that the battle of New Orleans was fought after peace had been declared.

Mysterious Death.

Mrs. Emma Bond, wife of Pleasant Bond, a wholesale grocer, of East Radford, Pa., is dead from a pistol shot fired near her heart by her own hand yesterday morning, either accidentally or with intent. Such was the verdict of the coroner's jury. Mrs. Bond kept a pistol in her room, and the tragedy may have been an accident, but it is generally believed to be a case of suicide, although there is no apparent cause, as Mrs. Bond's married life was happy.

Mrs. Bond had not been well for several weeks. She prepared breakfast yesterday morning about 7 o'clock, and told her husband to put it on the table. She went upstairs, and a few minutes later a pistol shot was heard. Mr. Bond found his wife lying upon the floor in an unconscious condition, the pistol clasped in her hand. He clothes were powder marked, as if the pistol was fired at close range. She lived but a few minutes.

Mrs. Bond was formerly Miss Emma Nance, of Bedford county. She was twenty-eight years old. She leaves two small children.

Cholera in Prussia.

The spread of cholera from two localities on the river Weichsel five days ago to 29 cases in 12 localities extending from the Baltic to the river Warthe, 150 miles south, and its appearance in Hamburg has given an unpleasant thrill to the people of Germany, for it may mean a long and steady fight as in 1892-93 to prevent the disease from getting beyond control.

In those years it is estimated that 800,000 persons died in Russia from cholera.

One cholera case has been officially declared in Hamburg. A Russian emigrant, who arrived at the emigrant station in Hamburg August 27, died Tuesday of what at first was diagnosed as inflamation of the lungs, but a microscopic examination of portions of the body proved it to be an unmistakable case of cholera.

Three more cases were reported yesterday in the vicinity of Danzig, two at Neu-Fohrwasser, of which one is dead, and one at Marienwerder, making 23 cases and seven deaths in all.

Pensions.

Beginning today, the Commonwealth commenced disbursing the sum of $200,000, which is to be paid out under the pension act of 1900 and 1902. The beneficiaries of these statutes number between 9,000 and 10,000, and while no man will receive more than $100, all the old soldiers are anxious to get what's coming to them. The beneficiaries are paid according to the injuries they or their descendants received, so all the checks are not for the same amount. The lowest sum paid out is $15 and the highest $100.

Abating a Nuisance.

It will be gratifing to the local traveling public to know that the malaria breeding cesspools along the route of the W., A. & Mt. V. Railway between Alexandria and Washington are now receiving the attention that has been long overdue, by the authorities having in hand the construction of the new steam railway route entering Alexaudria and Washington. Messrs. Price and Weadon have been awarded the contract to fill up and grade the stagnant pool at Four Mile run and will commence work Monday, and the one at Roach's run will have attention at an early date. Many patrons of the electric road have stated that while passing these points they have held their breath and closed their nostrils from the effluvia.

Clouds of Flies.

The Wilkes and Union street tracks of the Southern Railway were in use all last night. Many train loads of cattle were transported, and the lowing of bullocks and the puffing, snorting and panting of engines, while lullabies to some, rendered sleep impossible to others. Some of the cars containing cattle were at an early hour this morning placed on Union street, south of Wilkes, and clouds of flies gathered in and around them. After the trains had been removed swams of the winged insects made an attack upon the local bovines, and their discomfort was made apparent by the incessant lashing of their caudal appendages and other attempts to rid themselves of their tormentors.

Holiday on Labor Day.

The President at Oyster Bay yesterday signed an executive order providing that the employes of the Washington navy yard be excused from work on next Monday, Labor Day. By an act of Congress the first Monday of September in each year is made a public holiday, but, strange to say, the law is held by the lawyers of the government not to apply to the employes of the Washington navy yard, who are paid by the day, although all other employes of the goverument in Washington are accorded the holiday without question. The action of the President places all Washington employes of the government on the same footing as to this holiday.

Fast Running of Trains.

People living on north Henry street are again complaining of the fast running of passenger trains which, it is alleged, pass down that thoroughfare to the Duke street depot at an unlawful rate of speed. Most of the fast running is noticeable between ten and eleven o'clock at night during which time three south bound passenger trains enter the city. One of these, it is said, passed down Henry street last night at a speed of fifty miles an hour. This may be an exaggeration, but it is asserted by eye witnesses that the train left a cloud of dust in its wake which for a time obscured everything.

Alexandria National Bank.

The Commercial and Financial Review, published in New York, contains an interesting and complimentary notice of the Alexandria National Bank. It says:

"Not many banks of a like length of existence, and operating in a community of like magnitude, have made as notable a record as that which stands to the credit of the Alexandria National Bank, of Alexandria, Va., upon which your correspondent has just had the pleasure of making a call. This bank began business on March 9, 1904, with a capital of $100,000, and is already able to report resources of about half a million dollars."

Accidentally Shot.

Fritz Birrell, the little son of Mr. Edward Birrell, living on south Fairfax street, was accidentally shot late yesterday evening in the southwestern section of the city by a gunner who was killing blackbirds. One shot struck the child in the face and another in the side. His injuries are not serious. The neighborhood of Jones's Point is thronged with gunners at this time, and numbers of boys frequent this locality to witness the shooting of birds, and often they incur risks while running in front of gunners to pick up game.

The Oyster Season.

The oyster season began today. The trade, however, will not become brisk until after one or two cool spells and the water grows colder. That there are more oysters in Chesapeake Bay than for many years is the belief of all interested. As has heretofore been observed by the Gazette, comparatively few sailing vessels now engage in the oyster business from the fact that most of bivalves are transported by steamers to this city and Washington.

The Electric Plant.

The joint committees on light and finance of the City Council met last night and, under the ordinance passed recently, decided to advertise for bids for the sale of the city electric plant. The bids will be opened at the first meeting of the City Council in October.

Four pistol shots in rapid succession were heard in the northwestern section of the city last night. Others startled the neighborhood later.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

William Hansborough and George Lucas, arrested by Officer Henderson charged with disorderly conduct and fighting, were fined $5 each.

Frank Carter, colored, arrested by Officers Lyles and Allen charged with disorderly conduct and fighting, was fined $2.50.

Bertie Gibbons, arrested by Lieut. Smith and Officer Arrington charged with assaulting Mary Havener, was fined $5.

Bessie Carlyle, arrested by the same officers as a party to the above assault, was dismissed.

Linda Carroll and Maud Fleming, both colored, arrested by Officers Gill and Arrington for vagancy, were fined $5 each.

Mary Havener, arrested by Lieut. Smith for disorderly conduct, was fined $5.

Attempted Assault.

An attempt was made a few days ago by a Greek laborer to assault a young married woman, near Accotink, on the Washington-Southern Railway. The woman was sitting near the railway track when the Greek accosted and seized her. During the struggle that ensued a little son of the woman who was nearby picked up a rock with which he struck his mother's assailant, and later a neighbor appeared on the scene, attacked the Greek, and severely beat him. The man was then allowed to depart.

Alleged Thief.

Some excitement was caused in the northwestern section of the city shortly after ten o'clock this morning by a negro who was on a double-quick run with a white man following closely in his wake crying "stop him." Many people, mostly colored, looked on, but no one made any attempt to block the fugitive's path, and the latter soon disappeared beyond Colross. It is said that the darkey had stolen some articles from the man who was pursuing him.

New Paving.

The new granite curbing on Prince street, between Fairfax and Lee, has been placed in position and about one-third of the concrete work completed. The curbing for Lee street, between Prince and Duke, has arrived and the cobblestones are now being removed from that square preparatory to paving the same with vitrified brick.

The Bird Season.

According to law, the bird season opened today, although many of the feathery tribe have been slain, in defiance of the statutes, during the past two or three weeks, amateur gunners having been almost as numerous as the birds. The number of persons bearing guns was materially increased today.

Prepared for the Season.

The New Hotel Rammel is now prepared for the oyster season which began today. The culinary skill displayed in the preparation of oysters at this well-known hostelry has given it an enviable reputation, and during the season the bivalves will be served in the same inviting manner.

The President.

To the Editor of the Alexandria Gazette.

I respectfully suggest that his honor, Mayor F. J. Paff, and the city officials and Mr. Summers, revenue collector for this district, and Mr. Joseph L. Crupper, postmaster of the city of Alexandria, and Mr. M. B. Harlow, president of the Business Men's League, call a meeting for the purpose of inviting his excellency, President Theodore Roosevelt, to make an address to the people at the depot when he goes South on his triumphant tour in October. The man of even-handed justice, the president of the square deal, the lover of universal peace. God bless him,

Respectfully,
JAMES ROCHE.

Honors for Mr. Beach.

Soon after the federal grand jury which is investigating the cotton-leak scandal convened in Washington yesterday, the 12 men marched into the private office of District Attorney Beach and in an appropriate speech by a member of the jury the retiring District Attorney was presented with a handsome umbrella. That was Mr. Beach's last day in office, as today Mr. D W. Baker succeeds him.

The presentation speech on behalf of the jurors was made by Mr. Thomas Marshall. Mr. Beach made a brief speech of thanks in reply. The umbrella bears a silver nameplate, upon which is inscribed: "Presented by the Cotton Grand Jury to Morgan H. Beach, U. S. District Attorney, August 31 1905."

In the afternoon a fine silver loving cup was presented to Mr. Beach by the staff of the office of the District Attorney. The presentation speech was made in the private office by Assistant District Attorney Alexander R. Mullowny. The entire staff of the office had assembled there to express to Mr. Beach their regret at the severance of the pleasant relations that had existed since Mr. Beach took up the affairs of the office, two years ago. In reply to the speech of Mr. Mullowny the District Attorney spoke feelingly to his former associates. He said: "The difference in rank was merely an accident; in friendship the entire force has always been on one basis. You have been my stay, help, and guidance in the conduct of a public duty, and to your help is in a great measure due whatever of success has been obtained during these two years. Whenever I look at this cup I shall imagine it running over with the nectar of your love and loyalty."

Crusade Against Automobiles.

Unknown persons living along the pike between Martinsburg, W. Va., and Williamsport, Md., have begun a crusade against automobiles, whose owners have been accustomed for the past two years to use that highway as a speedway. Farmers in that section of the country have held indignation meetings and made many protests concerning the machines and the manner in which they have been handled on that turnpike. Lately a half dozen attempts to wreck machines have been made, and three very narrow escapes from serious accidents were averted by the vigilance of the autoists. Railroad ties and fence rails have been piled on the roadway at night, usually near the bottom of hills, where the machines attain their greatest speed, and there is less chance to avoid the obstructions, and heavy wire nails have been driven into the hard roadway with the object of puncturing tires and causing wrecks. The attempts have not been directed so much against the Martinsburg owners of machines, as against tourists, who have been reckless.

The Subway Tavern.

There remains of the subway tavern in New York little more than a dream. Bill Skidmore, of Brooklyn, took it over yesterday from Joe Johnson.

Mr. Skidmore, whose motto is "Business is Business," met the president of the Subway Tavern Company yesterday morning, and at 11:03 was owner of the Potter experimental saloon.

Mr. Johnson said that about $16,000 had been dropped in the experiment of mixing pure rum and religion. At the outset $10,000 was put up. When that went Johnson secured about $6,000 more to keep the tavern running. It was not any use. The Subway Tavern Company decided to go out of business some weeks ago, and Skidmore, who had run the rathskeller profitably, was given the first chance. Bishop Potter never had a cent's worth of interest in the tavern, said Johnson.

Chicago Printers Strike.

First indications that the threat of union officials to carry the printers' strike into every book and job printing house in Chicago, if necessary, was to be made good came Wednesday with the walkout of six compositors and two apprentices in a shop where union demands were ignored. A sign posted on the bulletin board declaring the place henceforth an open shop caused the men to quit work. Organizer Hordling, of the local union, said that by this morning at the latest every printing shop which is a member of the Chicago Typothetæ will find its men on strike unless it makes an agreement with the union. Another shop employing five union printers came under the ban later in the day. President A. R. Wright, of the union, issued an order for an immediate strike in any place where work from non union places is received.

The Stuart Report.

Mr. Fisher, of the Civil Service Commission, who was detailed to investigate the charges against Collector J. E. B. Stuart at Newport News, has finished his work and is now preparing his report, which will be submitted to the Civil Service Commission sometime during this week. Collector Stuart, who was formerly a democrat, was charged with discriminating against democrats employed in his office, and the investigation of the matter was made on the request of Congressman Maynard and some of those who thought that they had been discriminated against. While the result of Mr. Fisher's work cannot be foretold until the report is made public, it is claimed that no serious breach of civil service rules has been committed by Collector Stuart.

A Girl Assaulted.

Details reached Roanoke yesterday of an attempt at criminal assault near the American arsenic mines, in an isolated section of Floyd county. While passing along a lonely mountain path near her home, Miss Ella Willson, the 15-year-old daughter of a widow, was seized and thrown down four times. The girl succeeded in escaping after being badly bruised. An alarm was given and William Pogue, who is accused, was captured by Deputy James Reed, at 2 o'clock yesterday morning near the scene of the assault. He was taken to his home and allowed to change his clothing. The officer waited outside, but Pogue did not return. He left the house by a back door and has not been recaptured.

A New Party.

A movement has been started in Norfolk for the organization of a political party to be known as the Knights of Liberty, to fight the present national civil service laws. The Knights of Liberty propose to go back to the old Andrew Jackson principle of "to the victor belongs the spoils," and will fight all candidates for Congress who refuse to take a stand against the civil service. T. J. Kilpatrick, a local republican leader, is behind the new movement in Norfolk, and Mr. Kilpatrick announced yesterday that arrangements are being made for an early organization there. He announced that he has already secured a long list of names for charter membership.

FRIDAY EVENING, SEP. 1, 1905.

Appalling Suggestion.

Bride—My dear, this hat has been crushed beyond redemption, and I must have a new one. Bridegroom—Very well, my darling. I'll stop in somewhere on my way home and buy you one. (Bride faints with horror.)

Unanswerable.

Husband—Do you really need a new hat? Wife—I always need a new hat. Husband—Then what's the use of getting this one?—Life.

The Change of a Letter.

"Business men should be careful," writes a correspondent of a London newspaper, "to read their typewritten correspondence before committing it to the post. I have received a typewritten letter from a gentleman of German extraction who informs me that he is a 'wholesale tobacconist and cigar imposter.'"

Diplomacy.

"What did papa say?"
"He showed me the door."
"And what did you say?"
"I said it was certainly a very handsome door, but not what I had come to talk about. That made him laugh, and a minute later you were mine."

London's Intensity.

London is the most intense of all cities. New York is noisier; there is more rattle in Paris; in London alone you have that subdued roar, that indescribable murmur which suggests an irresistible volume of life that is deep as well as strong.—Christian.

Under the Chandelier.

Next time you go to a party watch some of the women as they stand under the chandeliers. Notice how a light shining from above brings out unsuspected lines and angles in all but the youngest and freshest faces. It is a severe test of beauty.

Down and Up.

"Wot did yer tell de judge?"
"Dat everybody wuz tryin' to keep me down."
"An' what did he do?"
"Sent me up."—Exchange.

His Compliment.

First Artist—Well, old man, how is business? Second Artist—Oh, splendid! Got a commission this morning from a millionaire. Wants his wife and children painted very badly. First Artist—Well, old man, you're the very man to do that for him.

Evidence.

First Lawyer—Think the old man was of unsound mind? Second Lawyer—Oh, yes. It runs in the family. Look at the way the relatives are spending money to break the will!—New York Press.

Had to Wait Events.

Alice—Ethel says she really doesn't know whether he will propose or not. Jack—Just like a novel, isn't it? Alice—Yes. But in a novel you could turn to the last chapter and find out.

Life.

A colored philosopher is reported to have said, "Life, my breddern, am mos'ly made up of prayin' for rain and then wishin' it would cl'ar off."

Sleep.

If the muscles are not tired, there cannot be a full demand for sleep, unless, of course, the brain has been overworked. Healthy bodily exercise, carried to the point of rendering rest sweetly welcome, is one natural means of promoting sleep.

Won Over.

Lawyer—I'll be frank with you. You can't break your father's will. Client—I'll be frank with you. I can't pay you unless it can be broken. Lawyer—I'll go you one better. We'll break that will.—Cleveland Leader.

Never strike a man when he is down. Ten chances to one he will get up again.—Detroit News.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Billiousness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 50c a bottle.

Cause of Insomnia.

Indigestion nearly always disturbs the sleep more or less and is often the cause of insomnia. Many cases have been permanently cured by Chamberlain's Stomach and Liver Tablets. For sale by Gibson & Timberman and W. F. Creighton & Co.

Numerous and Worthless.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by W. F. Creighton & Co., 401 King street.
